BULBS and
STRAWBERRIES

FALL BULBS—1920

WE take pleasure in presenting our ANNUAL BULB CATALOGUE for your early consideration. After the war conditions in Europe the stocks of many Bulbs are depleted but we have assurance from our Holland growers that the Bulbs shipped to us will all be first size and of quality equal to that supplied to us in former years.

We request our patrons to order early as there will undoubtedly be a shortage late in the Fall of first-class bulbs.

We thank our numerous patrons and friends for their continued confidence in our goods, which has enabled us to be proud of their patronage, and we hope to still maintain the standard and quality of our bulbs in the future as in the past.

Our patrons will always find courteous treatment from our fellow-workers who have so greatly aided us in the expansion of our business.

Planting Table For Beds of Bulbs

A circular bed 6 feet in diameter, with bulbs 6 inches apart, requires 110 bulbs; 5 inches apart, requires 160 bulbs; 4 inches apart, requires 300 bulbs.

Depth at Which Bulbs Should be Planted

Many of our customers are frequently puzzled to know the proper depth and distance apart at which bulbs should be planted. The accompanying diagram, reproduced from **Popular Gardening**, conveys the information much more clearly and briefly than we could describe it. The chart will bear careful study. **Outdoor planting should be done early in the Fall** to secure healthy plants, vigorous foliage and beautiful flowers.

Prepared Dutch Miniature White Hyacinths

Being unable to import any **White Roman Hyacinths** we have procured an extra fine lot of the above for early **Christmas forcing**.

L'Innocence. Pure white. Doz. \$1.25, 100 \$7.50, 1000 \$70.00.

Marshall's Exhibition Hyacinths

The varieties enumerated below have been selected for their distinct coloring and free-flowering qualities, and are all selected top-root bulbs, specially suited for growing in pots or glasses or for high grade bedding.

Single White and Blush

- Arentine Arendsen. Snow white, large flower.
- General Vetter. Blush white; very large.
- La Grandesse. Pure white; very large spikes and bells.
- L'Innocence. A pure white, handsome flower.
- White Lady. Immense spikes, pure white.

Single Blue, Purple and Violet

- Czar Peter. Light azure blue; large spike and bells.
- Electra. Light, silvery blue; enormous spike.
- Enchantress. Delicate porcelain blue.
- Grand Maitre. Dark porcelain blue; extra large truss.
- King of the Blues. Deep purplish blue; fine close spike.
- Perle Brillante. Light blue, perfect shade.

Single Red, Rose and Pink

- General de Wet. Light pink.
- Gertrude. Bright, rosy red; large, compact spike; very popular.
- Gigantea. Delicate shade of blush pink; large truss.
- Lady Derby. Light rose pink; early forcer.
- La Victoire. When forced, brilliant, dark pink; grown outside, a brilliant red.
- Moreno. Lovely blush pink; large truss.
- Queen of the Pinks. Brilliant pink.
- Roi des Belges. Dark scarlet; very fine flower.

Single Yellow

- City of Haarlem. Golden yellow.
- Yellow Hammer. Golden yellow.

The above named Hyacinths, 25c. each, \$2.50 per doz., \$18.00 per 100.

Marshall's Select Second Size Named Hyacinths

These are smaller than our Exhibition Bulbs offered above, but are fine flowering stock and admirably adapted for pot culture and high-grade bedding where distinct shades of color are desired. We can furnish them in the following grand varieties:

- Gertrude. Deep rose; extra fine for bedding, having erect truss.
- King of the Blues. Dark blue.
- La Grandesse. Pure white.
- Perle Brillante. Light blue.
- Roi des Belges. Brilliant crimson scarlet.

Price, any of the above, 20c. each, \$2.00 per doz., \$12.00 per 100.

Miniature Hyacinths

These are also known as Dutch Romans and Pan Hyacinths. They are small, single-flowering Dutch Hyacinths, and are very suitable for growing in pans, pots or boxes, using one variety only to each pan, to insure that they are all blooming at the same time. They are also fine for outdoor planting.

Lily of the Valley

For forcing, the pips are to be preferred, being grown under conditions tending to promote vigorous and early blooming. Twelve to eighteen pips may be planted in a 6-inch pot, with all the fibrous roots carefully preserved, and keeping the crowns above the soil. Place them in a temperature of about 80 degrees, cover the crowns with loose moss and keep them constantly moist with tepid water.

Marshall's Matchless Pips. The earliest, largest and best for forcing. Extra strong pips with long roots producing flowers with 15 to 20 bells and fine foliage. \$5.50 per 100, \$50.00 per 1000.

Cold Storage Lily of the Valley

We have at all seasons a supply of pips packed in cases of 250 and 500 for shipment as required.

Pot-Grown Strawberries

Pot-grown Strawberry plants are much superior to the ordinary ground layers usually sold, as there is no loss of fine roots in taking them up. They can be transplanted at any season with scarcely any check to their growth. The sooner pot-grown plants can be set out after June 1st, the larger they will grow and the more they will produce the next Spring. We only offer varieties that are considered the best of existing sorts.

Brief Directions for Culture

Strawberries require rich, well-tilled soil. The plants should be set 15 inches apart, in rows 2 feet apart. One hundred plants will plant four rows 30 feet long, if set above distance apart. For horse cultivation set plants 2 feet apart in rows 3 feet apart; 7,260 plants at this distance will plant an acre. Firm the plants well in the soil, keeping them thoroughly cultivated and cut off all runners. About the middle of December, cover bed with salt-meadow hay, straw or leaves. In April, as soon as the plants show indications of growth, push the covering away from the plants to allow them to come through. The mulching protects the plants from cold in the winter and heat in the Summer, keeping the fruit clean and prevents the growth of weeds.

Growing Bulbs in Prepared Fiber

The following bulbs may be grown in prepared fiber: **Hyacinths, Early Tulips, Narcissus, Jon-quils, Crocuses, Scillas, Freesias, Snowdrops and Spiræas.** Our prepared fiber is mixed with charcoal and only needs to be moistened before use. Bulbs may be grown in vases or bowls as drainage is unnecessary when using fiber.

Marshall's Prepared Fiber. Half pk. 35c., pk. 60c., bu. \$2.00.

Hyacinth Glasses

Hyacinths can easily be grown in water, and it is rather a novelty to grow them in this way.

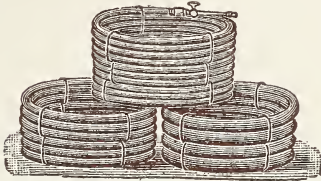

We offer the following two kinds of glasses to be used for this purpose:

Tall Shape. In various colors. Each 40c., doz. \$4.00.

Tye Shape. In various colors. Each 45c., doz. \$4.50.

Marshall's Lawn Grass Seed

Marshall's Special Lawn Grass Mixture

Marshall's Special Lawn Grass Seed produces a perfect and enduring lawn of luxuriant richness, with closely interwoven, firm and elastic turf, and it is usually ready for cutting in six weeks from time of sowing. This Lawn Grass is composed of a combination of various fine-leaved, deep-rooting grasses of interweaving habit, that flourish under our varied conditions, soils and climates, growing during different seasons of the year, so that a deep green, smooth and velvety sward, free from clumps, is maintained without burning brown in Summer.

This mixture includes highest grade reelected seeds of Crested Dog's-tail, Creeping Bent, Rhode Island Bent, and other fine Grasses with White Clover.

Price: Lb. 60c., 5 lbs. \$2.50, bu. (20 lbs.) \$9.00, 100 lbs. \$45.00.

Marshall's Central Park Lawn Grass

Marshall's Central Park Lawn Grass will produce an even, dense growth of permanent sward as early in the season as it is possible to do. This mixture contains no annual grasses for making a quick show to the detriment of a good lawn, but only those of lasting value and hardness, which, when once established, need no re-seeding for years. Our seed, which we know to be as pure as can be found anywhere, is of the best varieties, best suited for even and permanent growth; it is carefully cleaned and as free as it is possible to make it from foreign matter.

Price: Qt. 30c., 4 qts. \$1.00, pk. \$1.75, bu. (20 lbs.) \$3.00.

Marshall's Shady Place Lawn Grass

Usually it is quite difficult to obtain a satisfactory growth of grass under trees and in shady places; for sowing in such places we recommend the use of this special mixture. It will quickly produce an abundant and even growth of beautiful green grass. The grasses used in making this special mixture are only those that are well adapted for growing in shade. It has been successfully used on some large operations where a green sward was desired on land partially shaded by old trees.

Price: Qt. 35c., (by mail 45c.), 4 qts. \$1.25, pk. (5 lbs.) \$2.25, bu. (20 lbs.) \$8.00.

Rye

For grain, 1 bushel to the acre; for forage or soiling, $1\frac{1}{2}$ bushels, 53 lbs. to the bushel.

Giant Winter. This variety is fast gaining in popularity as a cover crop and produces an abundant crop of early green feed. If allowed to mature will produce a heavy crop of grain, and a fine quality of straw if cut about July 1. Pk. \$1.25, bu. \$4.50.

Wheat

The seed Wheat we offer is grown in Pennsylvania by a very reliable grower, especially for seed purposes. Sow $1\frac{1}{2}$ bushels to the acre.

Red Wave. Has long, well-filled heads and large, heavy red grain. The heads are beardless and straw long and yellow. Pk. \$1.75, bu. \$5.00.
